

The Bill James Handbook 2006

Errata

The Win Shares for five players are missing before the 2002 season.

Paul Konerko's entire Baserunning line is missing.

In the Pitcher Projections, Keith Foulke projection is wrong.

In the Park Indices, the three-year composite (page 319) has two lines for the Angels. Neither line is "wrong", as one shows 2003 and 2004 composite (Anaheim line) and the other shows 2005 only (Los Angeles line). However, neither is the true composite we wanted to show on this page.

Pages 364 and 365 contain the fielding leaderboards. For both AL and NL we show "Fielding Errors" and "Throwing Errors". We correctly list the players and their statistics, but we reversed the titles.

We show the missing and corrected information on the next page. We apologize for the omissions and errors.
