THE FIELDING BIBLE

JOHN DEWAN & BASEBALL INFO SOLUTIONS

An exclusive insiders' guide, now available to the public for the first time ever!

It's easy to understand why fans love big hitters like Barry Bonds and Albert Pujols. It's also relatively easy to measure their success as hitters. A comprehensive fielding analysis, by comparison, has never been available to the average fan. For the first time ever, that information is now contained in *The Fielding Bible* — the most comprehensive analysis of fielding statistics ever compiled for major league baseball players.

The Fielding Bible includes:

- In-Depth Analysis by Position – How do MLB players really stack up against each other defensively? A revolutionary new plus-minus system analyzes players position by position and provides top-to-bottom rankings.

The Fielding Bible also contains:

- Where Hits Landed – This allows a team to compare their defense point-by-point against other MLB teams.
- Double Plays – An analysis of double plays for every major league second baseman and shortstop, including double play percentage and pivot percentage.

Statistics are through the 2005 season.

JOHN DEWAN has consistently broken new ground in the area of sports statistical analysis, first as one of the founders and former CEO of STATS, Inc. and now as the owner of Baseball Info Solutions. He is also currently the co-publisher of ACTA Publications. As a noted sports expert, he is heard weekly on WSCR, "The Score," an all-sports radio station in Chicago, where he lives with his wife and two children.

BASEBALL INFO SOLUTIONS is an innovator in the collection, interpretation, commercialization and dissemination of in-depth baseball statistics.

Stay on the Cutting Edge

THE BILL JAMES HANDBOOK: PROJECTIONS UPDATE 2008

The annual Handbook provides the first projections for next season. But many things happen during the offseason, like trades, free agent signings, and retirement, which may affect playing time for the coming season. That's why we produce *The Bill James Handbook: Projections Update 2008* with cutting-edge projections reflecting changes through the last couple days of February.

Projections are adjusted for:

- Ballpark changes
- Free agent signings
- Trades
- Playing time adjustments

The hitter projections are shown twice, in alphabetical order and by position (the last season played in MLB). Both lists include hitters we think will get a minimum of 100 MLB AB, including a few rookies with no MLB experience.

Hitter and pitcher projections include columns for each player's old team (the last team he played on during a regular season game) and his new team.

The *Projections Update 2008* is available from www.baseballinfosolutions.com as an Excel spreadsheet and includes the player's league and 2007 MLB position(s) for your sorting convenience. The spreadsheet allows you to manipulate the data in a dynamic way and tailor it to suit your own interests!

HOW BILL JAMES CHANGED OUR VIEW OF BASEBALL

By COLLEAGUES, CRITICS, COMPETITORS
and JUST PLAIN FANS

Edited by GREGORY F. AUGUSTINE PIERCE

Does Bill James belong on TIME magazine's list of "100 Most Influential People in the World?" If all you think Bill James has done is change our view of baseball, then maybe not. But if you add in how this guy from Lawrence, Kansas, with "mismatching sox and dirt under his fingernails," has altered the way people think about a lot of things, including baseball, then maybe he does.

Here are twelve provocative essays by people who know James' work well, interspersed with shorter reflections by "just plain fans" and concluded with a last word by Bill James himself. Contributors include: Alan Schwarz, Hal Richman, Sam Walker, Ron Shandler, Rob Neyer, and John Dewan.
